EXPERIENCE

Developer

HackBlue, Fremont CA

Sep 2023 - Current

- Designed and crafted an impactful hackathon landing page that effectively captivated prospective sponsors, highlighting innovation, creativity, and technical proficiency.
- Lead the creation of an engaging news page for HackBlue, featuring articles on cybersecurity solidifying the company's reputation as a knowledge hub in the cybersecurity field.
- Elevated the company's website by seamlessly integrating responsive animations into the navigation bar, resulting in an engaging and user-friendly browsing experience.

Strategic Initiatives Intern

Meta, Sunnyvale, CA

Jan 2022 - Jul 2022

- Effectively reviewed and managed a comprehensive spreadsheet tracking team lead goals, meticulously monitoring status, progress, identifying risk factors, addressing delays, and implementing corrective actions to ensure timely goal attainment.
- Streamlined the onboarding process for both current and new users within the organization's goal setting application, efficiently assigning users to suitable teams and roles, ensuring a seamless integration into the system.
- Managed and consistently updated dashboards to provide in-depth analysis of the organization's annual goal achievements, offering valuable insights into the year's progress and success metrics.

EDUCATION

Full Stack Web Development Bootcamp

Coder Foundry

Mar 2023 - Jun 2023

- Complete Javascript challenges each with landing pages, a live section to test the challenge, and a code write up all currently live and hosted on Netlify.
- Built 3 full-stack web applications using ASP.Net, MVC, Bootstrap, JavaScript, and a PostgreSQL database. These projects include a [bug tracker](#) that is multi-tenant, role-based authorization, and allows companies to create projects and assign tickets to those projects. Additionally, I developed a [personal blog](#) where users can easily like and comment on blogs, and an [address book](#) that is multi-tenant, enabling users to categorize contacts, email contacts, and email all contacts in a category. All projects are published using Railway and are currently live.

SKILLS

- C#
- HTML, CSS, & Bootstrap
- PostgreSQL
- JavaScript
- Strategic Initiatives
- Microsoft Excel
- ASP.NET
- Model-View-Controller (MVC)
- Design Patterns and Principles
